Thank you for choosing Springhill Dermatology Clinic for your dermatology treatment. We understand that by your coming to our practice you consent to the treatment of your dermatology needs by the physicians and staff of our center.
To meet the needs of our patients, we participate in many insurance programs. Each insurance company has its own specific rules regarding the level of care, the amount of reimbursement and the physician practice where you may obtain dermatologic care. While we will work with you to provide your care within the guidelines of your plan, our main concern is providing you with quality health care. It is your responsibility to inform us of your plans guidelines for dermatology coverage. You are financially responsible for all charges for health care services that you receive at our center unless you are insured for such services. If you have full insurance coverage and/or our center is one of your network providers, you are responsible for paying annual deductibles, co-payments, co-insurance and all charges for noncovered services at the time that the services are rendered, and we will bill your insurance plan for your charges. If your insurance plan considers our center an out-of-network provider, you are also responsible for all charges for non-covered services rendered for each office visit or procedure. Most insurance companies apply to the out-of-network deductible, any services that are rendered by an out-of-network provider This amount will be adjusted if we learn that your plan covers more, or less, of your services.] We will file your insurance (up to two submissions) and then you will be billed directly for any unpaid balances after 45 days.

Please be sure to tell us when any of the following occur:
- You change insurance companies.
- You change plans within the same insurance company.
- Your plan has special rules for services such as lab work, ultrasounds, surgery, etc.
- You receive any notice of a change in your infertility benefits.

Payment for all services is your financial responsibility. We will have to bill you directly if you do not inform us of the above information and your coverage for care at our center is denied. If your plan requires you to have a referral to be seen at our center, you must bring or send the referral to us before you begin treatment. You may choose to receive services without the proper referral forms, however, you will be financially responsible for these services. We will assist you when we can so that you receive all of the insurance benefits to which you are entitled, and our staff and billing service are available to answer your questions. Thank you for your cooperation in this process.
